
WELDER

Matcor Metal Fabrication is a fully-integrated supplier of manufacturing and engineering services providing steel components and complex, high value-added assemblies for the agricultural, construction, mining, energy, heavy truck and industrial sectors.

We are currently seeking a Welder to join our team. This role requires an outgoing, versatile and energetic individual who has a keen sense for quality and urgency.

Reporting to the Production Supervisor the Welder will fabricate and bond metal together to produce a sub or complete assembly.

Essential Duties and Responsibilities:

- Selects equipment and plans layout, assembly, and welding.
- Lays out, positions, aligns, and fits components together.
- Bolts, clamps, and tack welds parts to secure in position for welding.
- Sets up equipment and welds parts, using arc, gas shielded arc, submerged arc, or gas welding equipment.
- Assembles parts by bolting and riveting.
- Operator and set up power/pneumatic tools.
- Repair products by dismantling, straightening, reshaping, and reassembling parts.
- Comply with requirements as outlined in the company handbook and the OHSA.
- Practice good housekeeping.
- Other duties that may be assigned.

Education, Knowledge, Skills and Abilities:

- AWS or CWB certification
- Used to working with large parts
- Overhead crane experience an asset
- Familiarity with blue prints
- In the habit of working in a busy and complex environment
- Excellent command of the English language, verbal and written

What you can expect in return

Matcor Metal Fabrication is a great company to work for. We offer a very competitive compensation package which includes excellent benefits.

If you are interested in joining a growing organization in this exciting role, please apply with your resume attached. While we appreciate the interest of all applicants, only those most qualified will be contacted.
